About The Company

- »»» Aajhat.com is a new modern brand and digital marketing agency in Bangladesh.
- »»» They try to create a platform of E-commerce website selling and also provide a best service for them.
- »»» They have expertise in branding, innovation, design, digital marketing and Social Media and analytics to drive measurable results for aajhat.com.
- »»» They provide a holistic suite of market-leading services marketing solutions for small businesses to bespoke brand strategies, branding systems and fully integrated digital campaigns for larger enterprises.

Our Responsibilities

We are working as a full-stack web application developer in Aajhat.com. We are responsible for implementing logic and creating API according to design and PRD(Project requirement document).

Front-End Technologies:

»»» Front-End Design using Tailwind CSS, SAAS.

»»» Data Integration using React js

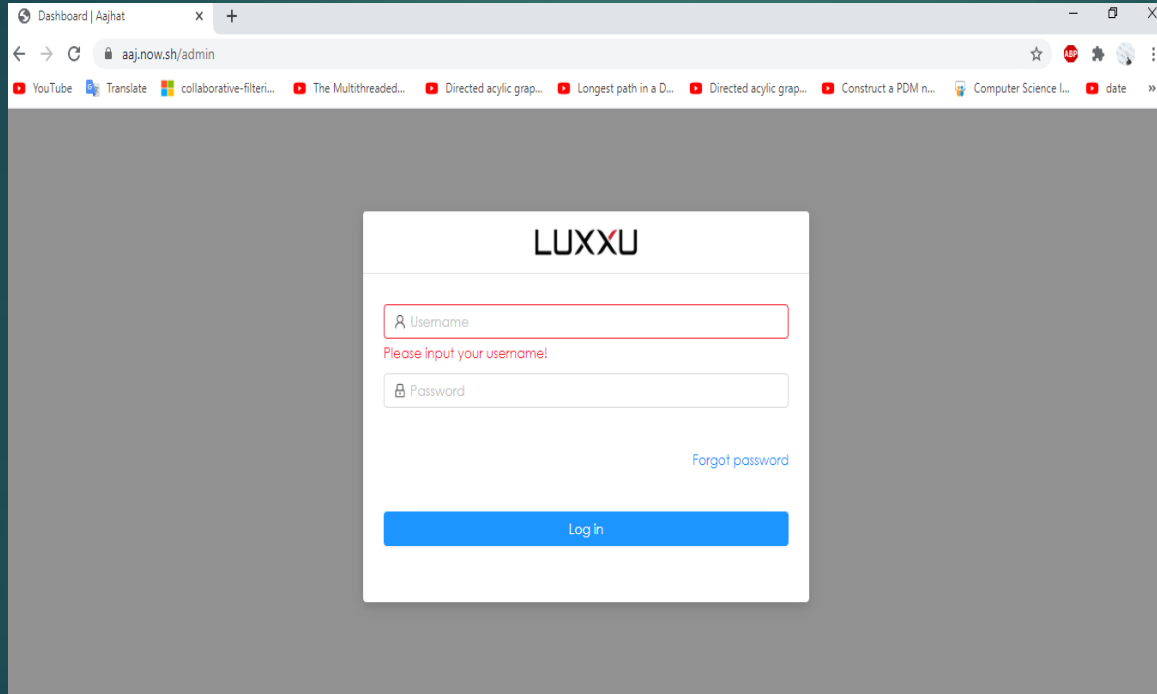

»»» Data Integration using Redux(Redux Thunk)

Back-End Technologies:

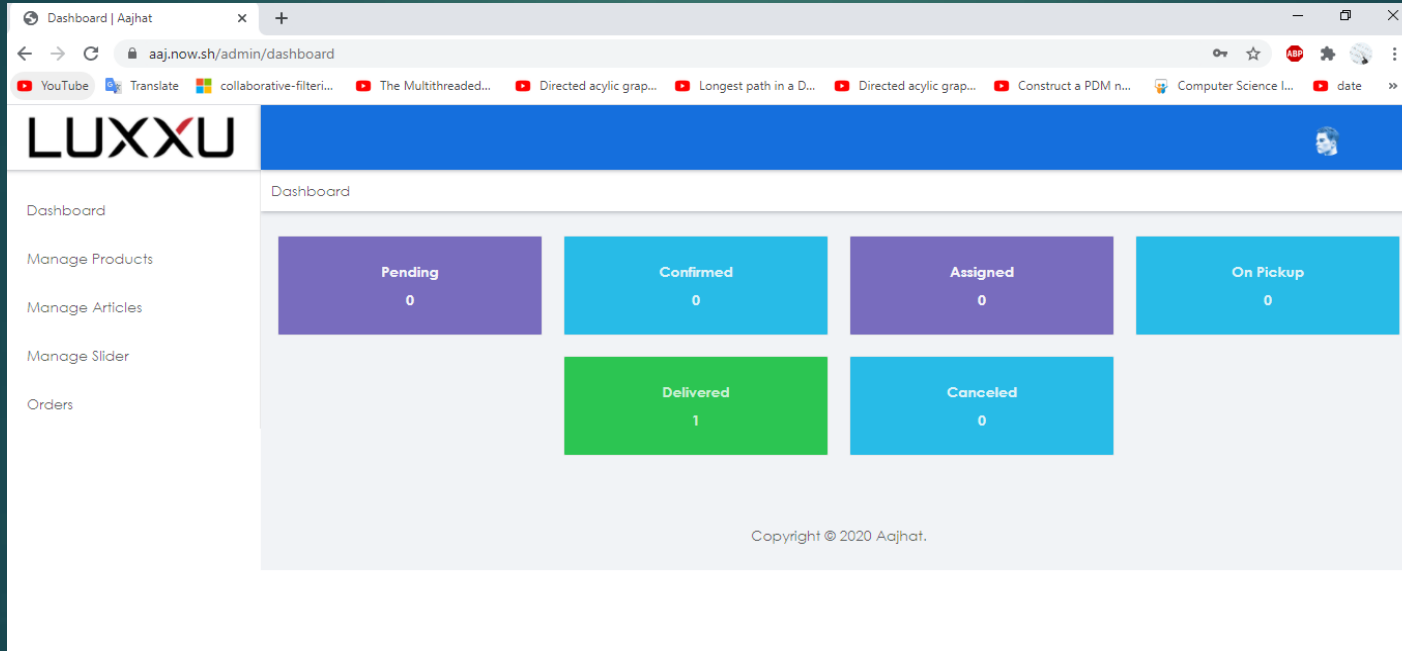

»»» For Back-End using Django.

»»» Using Django-Rest-Framework(DRF)

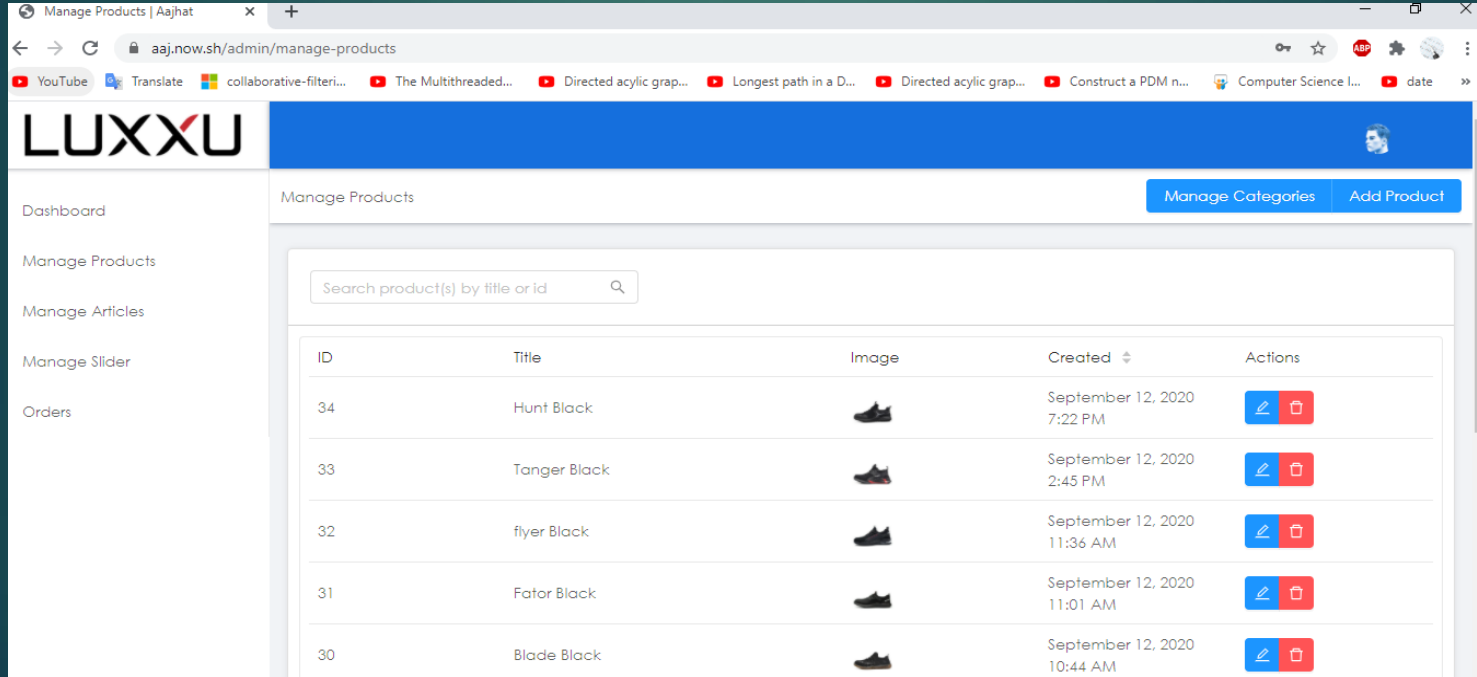

Some Graphical View of my work:

Some Graphical View of my work:

Some Graphical View of my work:

The screenshot displays a web application interface for managing products. The browser address bar shows the URL `aaj.now.sh/admin/manage-products`. The application header features the **LUX XU** logo on the left and a blue navigation bar on the right with a user profile icon and two buttons: **Manage Categories** and **Add Product**.

A left sidebar contains a menu with the following items: **Dashboard**, **Manage Products**, **Manage Articles**, **Manage Slider**, and **Orders**.

The main content area, titled **Manage Products**, includes a search bar with the placeholder text "Search product(s) by title or id". Below the search bar is a table listing products:

ID	Title	Image	Created	Actions
34	Hunt Black		September 12, 2020 7:22 PM	 
33	Tanger Black		September 12, 2020 2:45 PM	 
32	flyer Black		September 12, 2020 11:36 AM	 
31	Fator Black		September 12, 2020 11:01 AM	 
30	Blade Black		September 12, 2020 10:44 AM

The screenshot displays a web application interface for managing orders. The browser address bar shows the URL `aaj.now.sh/admin/manage-orders`. The application has a blue header with the 'LUX XU' logo and a user profile icon. A left sidebar contains navigation links: Dashboard, Manage Products, Manage Articles, Manage Slider, and Orders. The main content area is titled 'Manage Orders' and features a search bar with the placeholder text 'Search order by order id or Mobile number'. Below the search bar is a table with the following data:

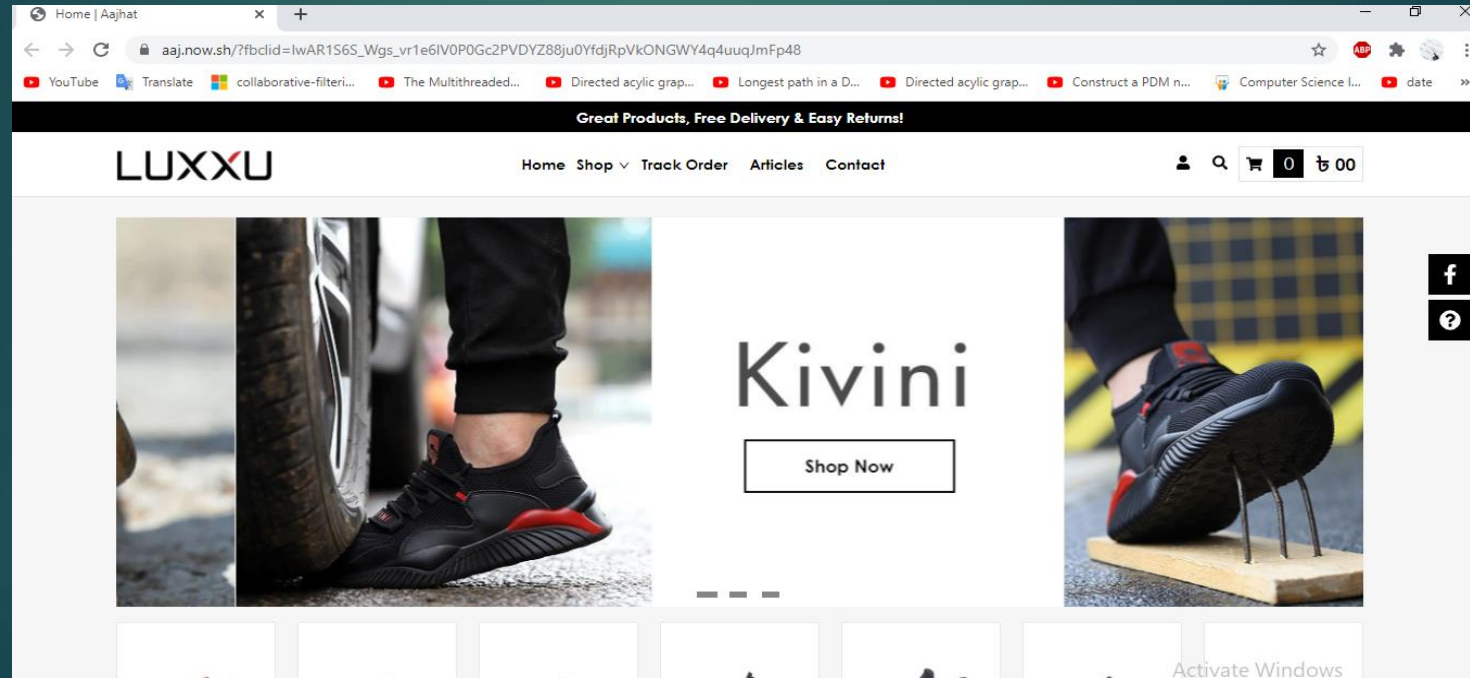

Order Id	Mobile	Total	Status	Created At	Actions
20200919024130	01778266563	2900.00	processing	September 18, 2020 10:41 PM	edit delete more
20200917021926	01715910946	5800.00	delivered	September 17, 2020 4:19 AM	edit delete more

At the bottom of the table, there are pagination controls showing '< 1 >'. The footer of the application states 'Copyright © 2020 Aajhat.' and 'Aajhat by M.Mind.com'.
